

A new going away
present for termites.

PREMISE[®]
GRANULES

A revolutionary way to use Premise[®] and protect your business.

Revolutionary Premise[®] Granules gives you a new tool
in your fight against subterranean termites.

- ◆ Only non-repellent termiticide in granule formulation
- ◆ Apply during initial visits, annual inspections and renewals
- ◆ Use as perimeter application or spot treatment
 - Spot treatment use rate: 3.0 ounces per linear foot of trench
 - Perimeter use rate: 3-10 ft perimeter band application,
1.8 pounds per 1000 square feet

Premise® Granules. A low-cost, additional layer of non-repellent termite protection.

Apply to:

- Bare soil, landscaped areas, turf grass and mulch areas
- Areas surrounding structures that are subject to termite attack
- Non-structural wood-to-soil contact situations

Quick and easy -- start killing termites instantly.

- Can be used before full structural treatment
- No mixing or set-up time
- No water needed to apply
- No bulky, heavy equipment needed
- Premise® Granules let you start protecting your customer's property immediately

Consider the revenue/profit opportunity.

- Upgrade your annual inspection
- Add value to your renewals
- Extra protection says "added value" to your customers

Simply your best choice for non-repellent termite control.

- Active ingredient, imidacloprid, is tried and true
- More effective than repellent insecticides which rely on barriers that pests can simply walk through
- Instead, termites walk or tunnel through treated areas

Premise Granules is Backed by Bayer,™ which means it's backed by Bayer science and service, no extra charge:

- Training, at your location or ours – BayerES Mobile University, the 5th Week Training Series, Coast to Coast seminars and convenient web programs
