

# Marengo®

## Marengo® 2021 Spring Program sheet

*Growers receive special pricing and terms on purchases of Marengo and Marengo G*

////// *Marengo provides up to 8 months of control of difficult weeds and it just keeps getting better...*

// Marengo **controls or suppresses 99 weeds**, has **270 tolerant plants** on the label and is now labeled for **over-the-top use** on field grown crops.

// Marengo G **controls or suppresses 98 weeds**, has **266 tolerant plants** on the label and **fewer “do not use plants.”**

// In a blind grower study,\* Marengo and Marengo G were rated as the **highest value preemergence herbicides** when compared to 7 other widely used products.

// **Up to 8 months of control** makes Marengo a very economical preemergence choice. Compare the cost-in-use of Marengo against your current herbicide program at [es.bayer.us/marengo-calculator](http://es.bayer.us/marengo-calculator).
