

CAN I USE INTERFACE FUNGICIDE ANYTIME, ANYWHERE, ON ANY COURSE? IS IT SAFE TO USE ON GREENS, FAIRWAYS, TEES AND ROUGHHS? WAIT A SECOND, IS THIS A NON-DMI ROTATIONAL PRODUCT? CAN I USE INTERFACE TO MANAGE MY RESISTANCE ISSUES? FOR SNOW MOLD, DOES INTERFACE GIVE ME FASTER GREEN-UP THAN THE COMPETITION? IS INTERFACE TURF QUALITY BETTER THAN IPRODIONE AND EMERALD®? DOES INTERFACE BLOW AWAY THE COMPETITION ON DOLLAR SPOT? SHOULD I MAKE INTERFACE THE CORE OF MY TURF MANAGEMENT PROGRAM? CAN I USE INTERFACE TO MANAGE MY RESISTANCE ISSUES? FOR SNOW MOLD, DOES INTERFACE GIVE ME FASTER GREEN-UP THAN THE COMPETITION? IS INTERFACE TURF QUALITY BETTER THAN IPRODIONE AND EMERALD®? DOES INTERFACE HELP ME SLEEP AT NIGHT?

YES

Interface®. Make it the core of your turf program.

So many questions, one easy answer: Yes, Interface should be the core of your program for healthier turf. It provides broad-spectrum disease control and turf safety you can count on anytime, anywhere. Interface blows away the competition on dollar spot, is the best on leaf spot and even controls snow mold. Its non-DMI chemistry lets you manage resistance issues. You can use it in the heat of summer and rotate in year-round. Yes, Interface with *StressGard™* formulation technology provides for denser turf and stronger roots to manage course stress. And naturally, it is Backed by Bayer. So perhaps the only question left is do we have the data to back it up? And of course, the answer is yes – at BackedbyBayer.com/Interface.

INTERFACE®
Intelligent Turf Management
