

# Topchoice®

## About Topchoice®

**Q: What is Topchoice?**

**A:** Topchoice provides up to one year of fire ant control with a single application.

**Q: What are the key features of Topchoice?**

**A:** Topchoice offers guaranteed residual control for up to one year after application.\* It controls existing fire ant colonies and prevents new ones, even remaining effective after rainfall.

**Q: What are the key benefits of Topchoice?**

**A:** Topchoice provides long residual control, which protects workers and reduces labor costs with fewer pesticide applications.

**Q: What is the active ingredient in Topchoice?**

**A:** The active ingredient is Fipronil which is in Insecticide Resistance Action Committee (IRAC) Group 2B.

**Q: Is Topchoice a bait?**

**A:** No, Topchoice is a contact granular insecticide that forms a long-lasting barrier in the soil.

**Q: Who can apply Topchoice?**

**A:** Topchoice must be applied by a licensed applicator because it is a restricted-use pesticide (RUP).

**Q: What is the Topchoice formulation?**

**A:** Topchoice is a granular formulation with consistent-sized particles for improved spreadability and coverage. It is available in 50-lb. bags.

## How To Use Topchoice®

**Q: What insects does Topchoice control?**

**A:** Topchoice controls fire ants, nuisance ants, fleas and ticks.

**Q: Where can Topchoice be applied?**

**A:** Topchoice can be applied in outdoor nurseries prior to placement of containerized plants, as well as non-production areas. Topchoice is only labeled for use in AL, AR, CA, FL, GA, LA, MS, NC, NM, OK, SC, TN, TX and VA.

**Q: Can I use Topchoice in my containerized plants?**

**A:** Topchoice is not labeled for use in containers.

**Q: What is the re-entry interval (REI) when using Topchoice?**

**A:** There is no REI associated with Topchoice applications.

**Q: What personal protective equipment (PPE) is required when using Topchoice?**

**A:** Long-sleeved shirt and long pants, shoes plus socks, and waterproof gloves are required.

## How Topchoice Works

**Q: How quickly does it work?**

**A:** Topchoice will reduce the number of active mounds within 2-3 weeks of broadcast application.

**Q: How long will the effects last?**

**A:** Topchoice will remain effective controlling and preventing new fire ant mounds for up to one year after application, guaranteed by Bayer\*.

\*The guarantee is limited to the remedy of a retreatment of the treated area. If this product does not perform to your satisfaction, please contact Bayer Customer Service at 1-800-331-2867 for product for the retreatment.
